

Basic Historical Vocabulary

Decade – 10 years

Century – 100 years

Millennium – 1000 years

Chronology – Time order

Period – A certain amount of time that we “chop” history up into. For example the Romans or the Tudors.

Bias – If something is one sided, or not looking at both sides of the argument it is **biased**.

I think that this source is biased because it doesn't show the other side of the story.
